TIP

Kortrijk has an impressive list of superb establishments. Take a break and treat yourself at one of the diverse soup and coffee bars. Pick up some street food or drop into a bistro and spoil your taste buds. Discover some more culinary highlights in one of the city's many first-class restaurants. After dinner, atmospheric terraces and fun pubs beckon to provide a fitting end to the evening.

TIP

Lowering banks of the Leie

The lowered quay walls have transformed the area of the famous Broel Towers into the city's calling card. The banks will bring you very near the water's edge, so much so that, sitting on one of the lovely terraces, you will almost be able to dip your toes into the water.
